We are required to monitor your drinking water on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. Between 1/1/2020 and 12/31/2020, we failed to submit the required samples as indicated below and therefore cannot be sure of the quality of our drinking water during that time.

**What should I do?**

There is nothing you need to do at this time.

The table below lists the required monitoring and the compliance period.
